Fee Collection for Parks and Campgrounds

Pay stations from Digital Payment Technologies (DPT) offer parks, recreation, and campground operators a flexible and secure self-service solution for fee collection. Pay stations are easy to use and can accept payment for various park and campground-related activities such as campsite reservation, parking or boat launches. The backend management system allows you to remotely manage all your pay stations, from configuring fee schedules to generating real-time revenue reports. DPT Pay stations even notify you with maintenance and collection alerts.

Why Pay Stations?

Pay stations provide parks and campground users a quick and convenient way to pay for recreational activities while making the management of fee collection more efficient.

Pay Stations allow you to

- Provide a wide range of convenient payment options, such as coins, bills, credit cards, smart cards, value cards, coupons, and even Pay-by-Phone
- Provide change for cash payment
- Manage fee collection more safely and securely
- Reduce cash collection costs; only collect when pay stations reach a set threshold
- Collect multiple types of fees on a single pay station

- Manage campsite reservations
- Increase employee safety and deter theft
- Redeploy staff to offer other value added services

Pay Station Applications

- Boat launches
- Day use/Picnic areas
- Campsites
- Firewood
- Guided nature hikes or tours
- Admission to events or attractions
- Parking
- Rental of picnic shelters and other facilities
- RV hook-up

LUKE II and SHELBY Pay Stations
